Find Out More <https://connectteam.com/restaurant-hr-policies-procedures/>

- Unclear policies for behavior
- Potential lawsuits for negligence
- Long hours spent on process

LOW TURNOVER

results from:

Good Management Mentors
Good Scheduling
Conflict Resolution
Benefits
Company Culture

- Clear rules set for behavior
- Align with employment law
- Process set to minimize hours spent.

#DoTheMath

The average restaurant operator makes **\$65,000/year**. That equates to around **\$31/hour**. Lets assume you have **25 employees** total and your turnover rate is **70%** - that means you terminate **18 employees** every year. (**More than 2 per month**) You are spending **54 hours** a year simply terminating employees. This means it costs you **\$1500/year** if it takes you **1 hour** per employee to terminate. Not to mention managing final pay and unemployment. **Does it take you 1 hour per employee to terminate?**

2.

MANAGEMENT INCLUDES: Engagement with Training Employees, Conflict Management, DEI, Building and Enhancing Your Culture, & Employee Satisfaction. This **MATTERS** and keeps turnover rates low.

Management is **less effective** without clear goals, mentors, & employee feedback

- Uncontrolled trainings
- No conflict resolutions
- Loss of company culture

Management is **more effective** with clear goals, mentors, & employee feedback

- Employees trained properly
- Conflict resolution techniques
- Culture that incentivizes retention

#DoTheMath

You have **25 employees** total and your turnover rate is reduced to **10% (Incredible)**- that means you hire **2.5 new employees** every year. (**less than one every 6 months**) You are spending **more time doing the things you want** by using Our HR Office.
